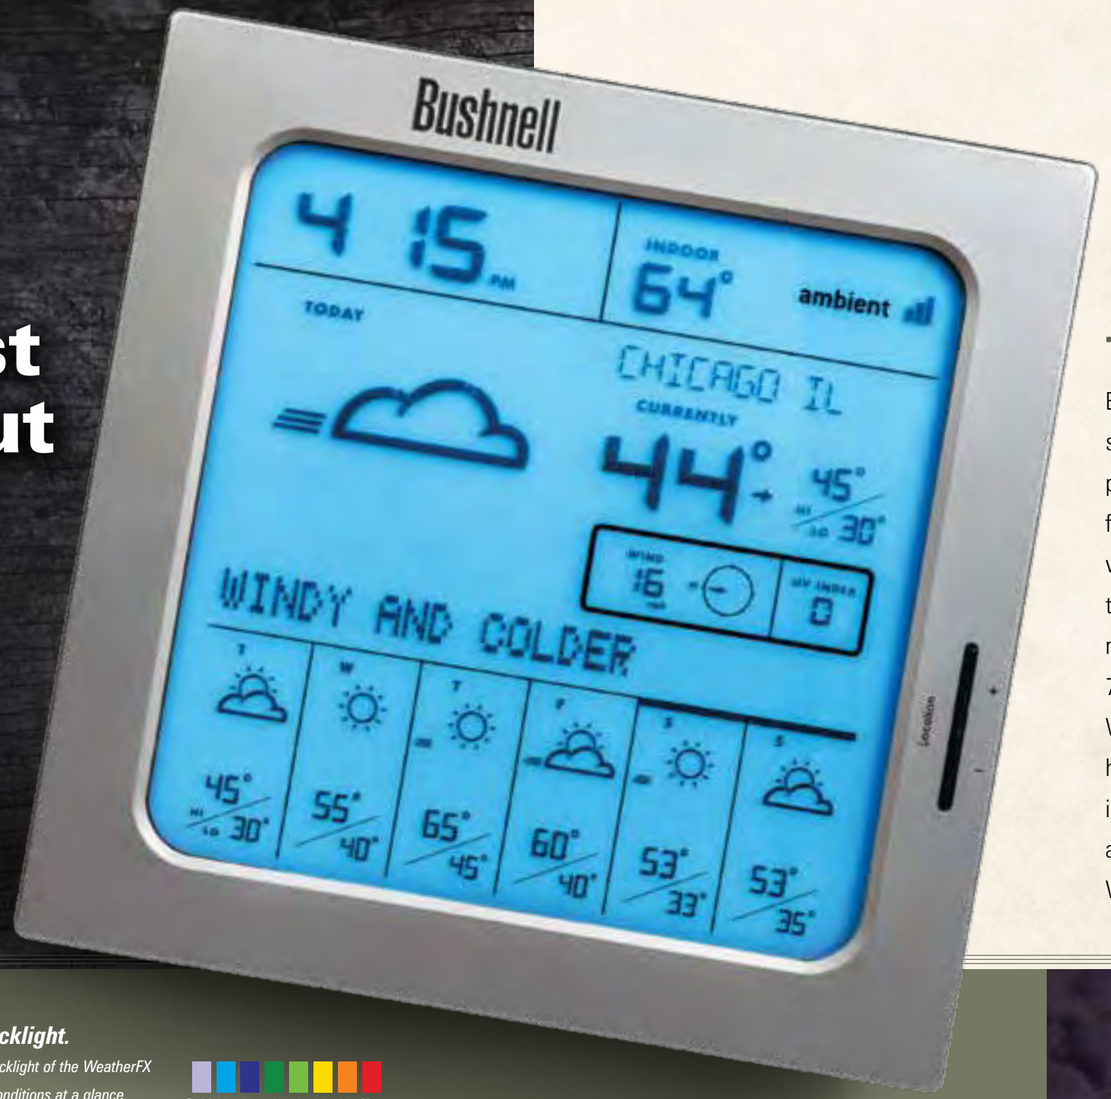
Outstanding weather forecast accuracy without commitment.



The ultimate outdoor planner.

Errands on Saturday, big hike on Sunday. Or, wind direction says hunt the ridge, not the bean field. No matter your passion, our latest technological break-throughs in weather forecast information will prove tools of unmatched value to those who live to be outside. Those also tend to be the people who value freedom and will love our no-strings-attached function. Choose from 3-, 5- and 7-day forecasters, plus our new internet-driven unit, the Weather FXi, and exclusive SkiFX All Mountain Sports for high-country enthusiasts. All provide real-time weather information from AccuWeather to help you plan your adventures with confidence. Pretty soon you'll see: WeatherFX is the wisest first step to anything outdoors.

AccuWeather.com®

The world's weather authority, AccuWeather provides accurate, real-time forecasts on your Bushnell® WeatherFX® without subscriptions, installation or extra charge.

Color-Changing Backlight.

Based on temperature, the backlight of the WeatherFX changes color so you know conditions at a glance.

Cold 30s 40s 50s 60s 70s 80s Hot

Accurate weather forecasts. No strings attached.

No sensors. No installation. No need for a subscription. Our WeatherFX® weather forecasters provide precise weather data without the ongoing commitment, upkeep and obtrusive setup of other systems. Available with 3-, 5- and 7-day capabilities, they deliver reliable, realtime forecasts 24/7 from the world's weather authority – Accuweather.® This pinpoint information is available for over 150 cities. Once you pick your city, the forecast is automatically updated every 15 minutes via pager technology. And the network-synchronized clock never needs resetting.

On-screen weather icons show the forecast at a glance.

A little something to help you picture next weekend.

Keep your eye on the prize. With seven days of accurate, real-time weather information at the touch of the button, you can have a plan in place for next Saturday, and dress accordingly for all those occasions in between. Like all Bushnell® forecasters, it requires no sensors, subscriptions or wires. Weather data is automatically updated throughout the day from AccuWeather.com® using a wireless transmitter connected to your PC. Setup is quick and simple, and you can view the forecasts on your wireless transmitter or your PC. With a coverage area spanning more than 20,000 cities, live weather messaging for today's conditions, a color-changing backlight and more, it's more than enough to get you through the week.
